# Science Skill: Inferring with Shadows

## Follow these steps

**Step 1** Work with a partner.

**Step 2** Choose an object. Do not let your partner see it.

**Step 3** Shine a flashlight on the object. Make a shadow on the wall.

**Step 4** Have your partner infer what made the shadow.

**Step 5** Take turns.

## Thinking About Your Thinking

How were you able to infer what made the shadow?

---

---

---

---

---

---

---

---

How did what you already know help you infer what the object was?
