

Robotics and Coding

Are These Robots?

A robot is a device that is programmed to complete a task on its own.

A human pushes a button and the device completes the task.

Think carefully about how each of these work. Is it a robot?

Device	Identifier	Yes	No
	Remote		
	Rubber Duck		
	Electric Gates		
	Remote Controlled Car		
	Rocking Horse		
	Robotic Dog
