

Lesson 4.7: Presentations

Objectives

In this lesson, students will:

- ❖ Practice and experience presenting and demonstrating a project to the class

Agenda

- | | |
|----------------------------------|---------|
| 1. Presentations | 35 mins |
| 2. Wrap Up and Final Reflections | 15 mins |

Preparation

- Projector and speakers for demonstrations and presentations

Resources & Links

- None

1. Presentations

Each student team presents and demonstrates their project in their pre-assigned order to the class. Encourage teams to have each team member participate in the presentation.

2. Wrap Up and Final Reflections

Reflection Points:

- What was fun about the entire project?
- What was challenging about going through the different software development phases?
- Describe your experience of working with a partner for such a long project? What did you learn working with somebody?
- Is there anything you would like to add or change to your project if you had more time?
