Questions	Rating	Comments
The code is bug free. There are no broken links, missing images.	✔ ✘	
Navigating around the site is easy. I can easily get from one page to another, and I can reach every page on the site.	✔ ✘	
All the image sources are cited. I can see where the image came from and the license that is is published under.	✔ ✘	
The required content is there. The site has paragraphs, lists, links, images, and uses styles with rgb colors.	✔ ✘

Applying the Feedback You Were Just Given:

There is **always** room for improvement in a project like this, no matter who you are or how much experience you have in making websites.

In the space below, use the feedback from your group to identify the following:

1. What one thing stood out by your peers as something that was good in your work that you hadn't already noticed yourself?

2. What two things did your peers identify that would improve the quality of your personal website. List two **specific** actions you can take to make these improvements?
